

RESOURCE invests in people to care for themselves and their families. Our mission is to increase well-being through recovery, employment, and career advancement. We provide licensed clinical treatment, care coordination, and recovery support to individuals struggling with addiction and mental illness to ensure that successes achieved are long-lasting. Our workforce development area serves individuals with barriers to employment through assessment, credentialed career training, education placement, job placement, retention services, and wrap-around support services.

Internships are based on our programs' current needs, so we may not always have opportunities available. If you would like to inquire about openings please contact the staff member listed under the type of internship you are seeking.

To be an intern with RESOURCE, you must be completing an academic or licensure program that has an internship as a requirement. If you do not but would like to gain experience in the field, please consider interning with us.

Alcohol and Drug Studies

We offer four or more internships per semester for individuals who are studying to be an Alcohol & Drug Counselor (LADC). The focus is on the 12 core functions. Opportunities are available for Outpatient Treatment, Family Residential Treatment and Recovery Maintenance programs. Internship spots will be split between different colleges & universities.
