

Internship Opportunities

RESOURCE invests in people to care for themselves and their families. Our mission is to increase well-being through recovery, employment, and career advancement. We provide licensed clinical treatment, care coordination, and recovery support to individuals struggling with addiction and mental illness to ensure that successes achieved are long-lasting. Our workforce development area serves individuals with barriers to employment through assessment, credentialed career training, education placement, job placement, retention services, and wrap-around support services.

RESOURCE offers internships based on our programs' current needs, so we may not always have opportunities available. If you would like to inquire about openings please contact the staff member listed under the type of internship you are seeking or Courtney Flug, Volunteer Program Manager, cflug@resource-mn.org 612-752-8030.

To be an intern with RESOURCE, you must be completing an academic or licensure program that has an internship as a requirement. If you do not but would like to gain experience in the field, please consider volunteering with us.

**Please contact Courtney Flug with any questions regarding internships or volunteer opportunities:
